Subject: Docket # 2007-286-WS

Utilities of SC - based in Illinois- has given the residents of Dutchman Shores nothing but headaches and extremely high water bills. I live at 121 Purgatory Point, Chapin, SC 29036. I am the only person in this household and use very little water. My landscape is watered from pumped water out of Lake Murray. My average bill is around \$40. My brother uses City of Chapin water and his average bill is \$16.

Because of the high pressure of water flow, I had to replace the pipe from the street to the house. My neighbor at 119, had her house completely flooded due to this problem.

I never recalled any improvement projects over the years.
I know we pay (Dutchman Shores Residents) for any water
breaks this company experiences.

Please do not allow this company to raise our rates. This
company needs to be investigated.

John Stockdell
